### G-BIACK PLAN OF ACTION 2020

**SAMUEL AND PERIS NDERITU – G-BIACK DIRECTORS**

Happy New Year everyone!

2019 was a very successful year for the GROW BIOINTENSIVE Agriculture Centre of Kenya (G-BIACK). We were able to empower so many communities, bringing about big changes among the needy communities and reducing extreme poverty which is our main goal. The year was also crowned by Directors Samuel and Peris and their two children Keith and Annet visiting G-BIACK's long term partners in the U.S.: Community Alliance for Global Justice and Agra Watch in Seattle; Kilili Self Help Project and Amistad International in San Francisco; and Ecology Action in Willits California. As well, G-BIACK was awarded by the Participatory Ecological Land Use Management PELUM Kenya for emerging the best exhibitor during the annual Networking symposium.

G-BIACK has plans to be even more proactive in the year 2020. Our major focus will be in the following areas:

- Continuing to build the capacities of small-holder farmers in *agroecological* Biointensive Agriculture.
- Empowering the women and the youth by offering them skills that help them become self-reliant.
- Helping in the establishment of farmer-led agricultural Satellite Centres in different parts of the country.
- Continuing to build the capacities of NGOs that are not practicing agroecological methods by offering them skills in good agricultural practices. Everything we do at G-BIACK is geared towards the reduction of extreme poverty among the larger population that lives in rural Kenya.
